**Celebrating 24 years of Service to the Electronics Industry!**

***Micro Device Electronics, Inc.***, international distributor of electronic components, has been providing supply chain alternative solutions for our O.E.M. and C.E.M. customer's around the world **since 1978**.

**At *Micro Device Electronics, Inc.***, we fill the void of service abandoned by the traditional distribution channel. We offer the focus and flexibility to meet your unique demands and special requirements. This is accomplished with "real customer service...not lip service" and "on time delivery" of semiconductors, circuit protection devices, integrated circuits, even allocated or obsolete components, to our satisfied worldwide customers.

We are proud to have provided innovative sourcing solutions and exceptional customer service for over two decades and look forward to serving your needs today and in the future. We have practiced efficient supply chain management for **24 years**
